

3115/11 Air-Blow

RFID Primary Applicator

The Label-Aire® Model 3115/11 RFID's easy air-blow labeling makes RFID tag labeling easier and faster.

The Model 3115/11 Air-Blow delivers on its promise of accuracy, reliability, and ease of use. That translates into lower operating costs and increased productivity for your business.

The Model 3115/11 RFID's advanced features include Velocity Compensation for improved label placement accuracy. Zero Downtime Labeling allows your production to continue without costly interruptions. Product/label queuing and missing label compensation virtually eliminate unlabeled products. This unit's advanced RFID features include EPC, Class 0, Class 0+, Class 1, Gen 2 RFID tag encoding, fully integrated UHF/EPC technology, user friendly Label-Aire RFID tag formatting software, and innovative Tag Rejecter mechanism.

Put this most advanced RFID applicator to work for you all day, every day. The Model 3115/11 Air-Blow labeler is built to meticulous quality standards and designed to withstand the most demanding operation.
