

RFID Labeling Solutions

3115 Wipe-On

RFID Primary Applicator

The Label-Aire® Model 3115 RFID's easy wipe-on labeling makes RFID tag labeling easier and faster.

The Model 3115 RFID's easy wipe-on labeling is the affordable way to bring your operation to the RFID technology age while also meeting your bottom line.

Advanced features include Automatic Speed Following (ASF) which allows product surface profiling, ensuring wrinkle-free labeling on even the most difficult product shapes and label materials (optional encoder required). Zero Downtime Labeling allows your production to continue without costly interruptions. Product/label queuing and missing label compensation virtually eliminate unlabeled products. This unit's advanced RFID features include EPC, Class 0, Class 0+, Class 1, Gen 2 RFID tag encoding, fully integrated UHF/EPC technology, user friendly Label-Aire RFID tag formatting software, and a patent pending Tag Rejecter mechanism. The 3115 RFID can also be configured for tamp-blow or air-blow labeling.

Put this most advanced RFID applicator to work for you all day, every day. The Model 3115 RFID Wipe-On labeler is built to meticulous quality standards and designed to withstand the most demanding operation.
